

ALUMINIUM SLAT
FENCING

ALUMINIUM SLAT FENCING

Our range of Aluminium Slat Screen Fencing offers the latest in architectural styling for your home. Our slats will not rust, warp or require repainting, and offer a cost effective alternative to high maintenance timber screens. The range is easy to install and comes with a 10 year warranty.

Slats come in a range of profiles and lengths and can be easily cut down to size

Posts come with pre-cast channels allowing for easy positioning and fixing of slats

Custom Panels, Sliding, Double & Pedestrian Gates are also available on request

Deep Ocean

Silver Pearl

Ironstone

Timber Effect

*Colour swatches are guides only. Exposure to U.V. light, pollution, salt deposits and chemicals can affect the long term performance of the enclosures coating if not removed with regular washing. A regular monthly clean with a soft brush, warm water and mild detergent followed by a rinse of fresh water will maintain the finish of both powder coated, Colorbond® Steel and stainless steel enclosures components and fulfil warranty conditions.
